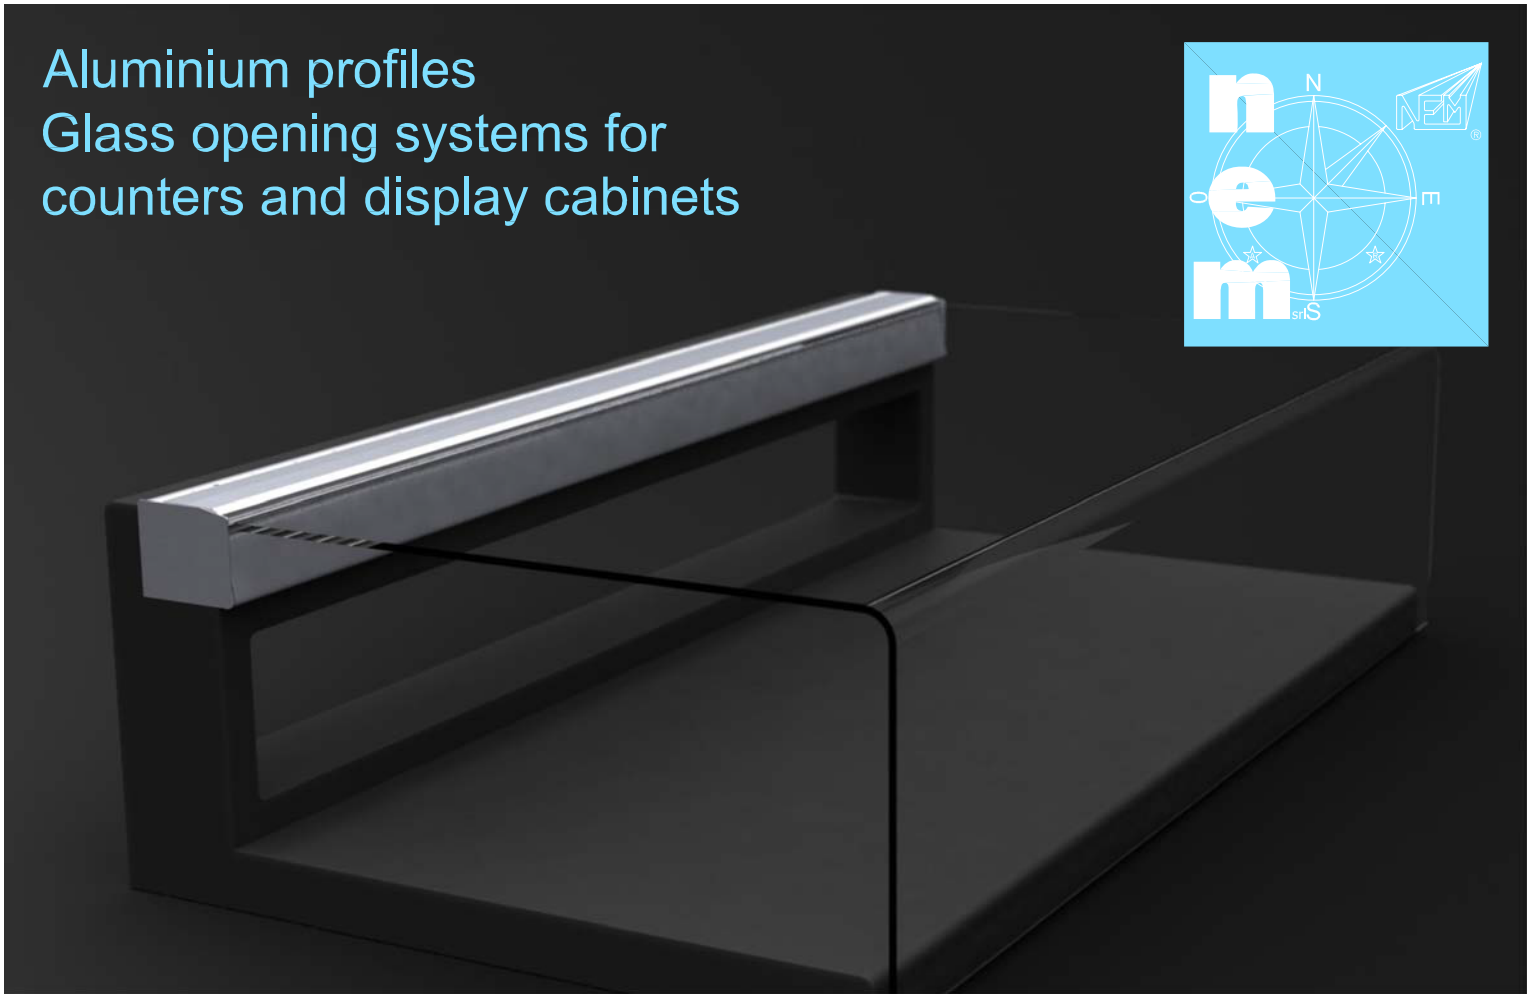
Aluminium profiles
Glass opening systems for counters and display cabinets



• System 052

1. Lift-up opening system actuated by longitudinal mechanics
2. Suitable for curved glass, “L” shaped (R20, corner 90°) or bonded glass, thickness 6/8mm
3. Minimum overall dimensions in order to reduce the aluminum parts impact maximizing the products visibility
4. Gas-rams are installed inside the mechanics, a protection carter separates gas-rams from the products
5. The base profile could be installed on the complete length of the counter using a complete bar, giving the possibility to seat more mechanics and enforce the counter at the same time
6. 052 system provides top security in open position and a high holding when closed
7. Ideal system for pastry and no food, it finds high level applications also for deli, bakery and butcher's shop
