## Glass opening systems for counters and display cabinets

### ● System 078

1. Tilt-down glass opening system for single glass thickness 6/8mm, NEM srl patent-pending
2. It gives the possibility to keep a 90° fitted vertical position of glass avoiding any screwing system or bulky brackets on the top of glass
3. Minimal esthetic that gives a wide space to the glass component matching in this way the most recent Markets requests
4. NEM 078 system is equipped with mechanical settings for the perfect vertical alignment of the glass after installation
5. The friction between opening clamp profile and base profile is adjustable thanks to a setting tool
6. The clamp profile complete with glass can be assembled from the front part of the counter in order to obtain an easy and quick installation and removal in case of canalization
7. The system can be installed using more clamps hanged on a structural continuous base profile
8. The total opening of NEM 078 system is about 45° wide, the widest of its category
9. In opening position the clamp complete with glass is amortized by an end stop situated in the bottom part of the structure
10. System is equipped with price tag seat all along the base profile
11. NEM 078 is ideal for pastry, bakery, seafood and deli cases, its versatility let it be assembled on the most different units, whether hot, cold or neutral temperature
