Installazione con telaio di supporto
Installation with supporting frame

Esempio con soluzione "tutto vetro"
Example off "full glass" installation

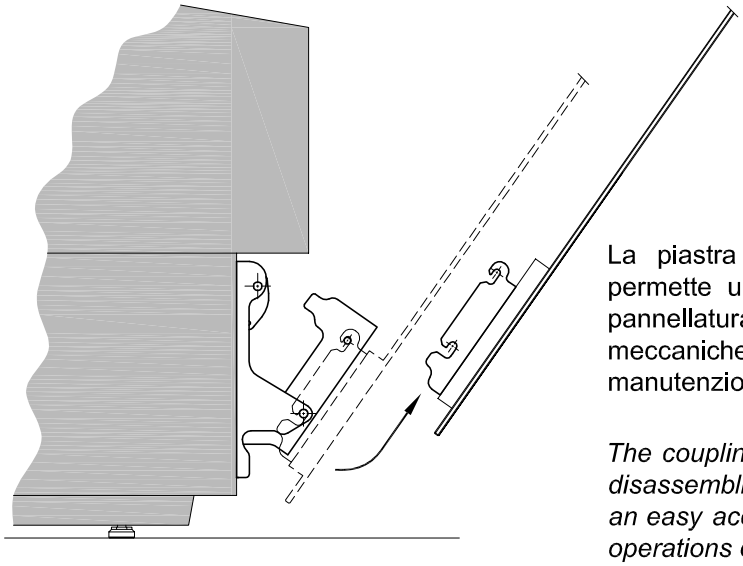

Esempio con soluzione vetro e pannello in legno
Example of glass and wooden panel installation

Meccanica completa, escluso pistone **Cod. 155.1410.00**
Complete device, without gas spring

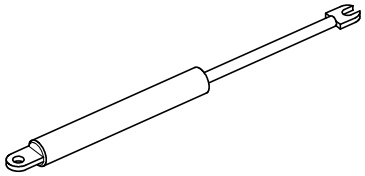

Meccanica completa INOX, escluso pistone **Cod. 155.1420.00**
Compl. device ST. STEEL without gas spring

La piastra di aggancio, fornita con le meccaniche complete, permette un rapido smontaggio di tutta la parte frontale (vetro, pannellatura...), questo consente di accedere agevolmente alle meccaniche per eventuali regolazioni e di effettuare la manutenzione della vetrina stessa.

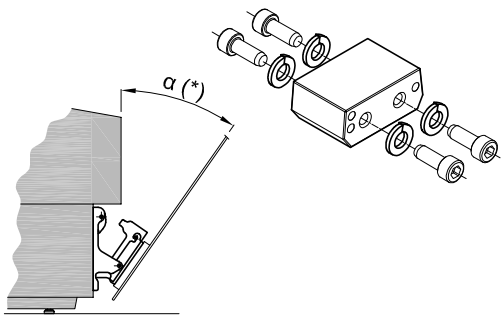

The coupling plate is supplied with the devices and allows a quick disassembling of the entire front part (glass, panels...). This allows an easy access to any device setting and comfortable maintenance operations on the showcase.

Molla a gas (vedi pag. 200/04) **Mod. C.36,5 mm**
Gas spring (see sheet 200/04) ***Stroke 36,5mm***

400N	**Cod. 007.1140.00**
600N	**Cod. 007.1160.00**
800N	**Cod. 007.1180.00**

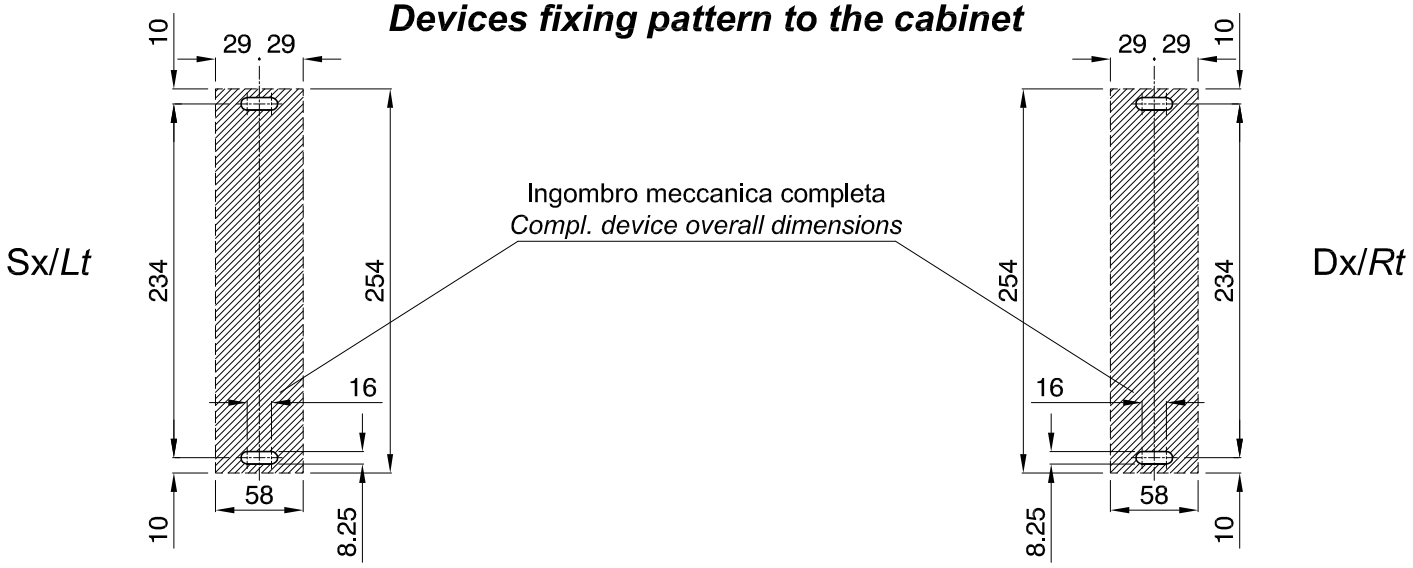

Componenti opzionali
Optional components

Kit di regolazione angolo di apertura (*) **Cod. 155.0003.00**
Opening adjusting kit (*)
